Q. Why do we recommend the use of Finishing glaze with Lash Perfect adhesives?

A. The Ultimate Finishing Glaze should be applied to Lash Perfect eyelash extensions to give them a gorgeous sheen. This product adds lustre to the eyelash extensions and the practical mascara brush allows for the eyelash extensions to be tamed following the treatment. As it also aids in the drying process of the adhesive, it is a core product that **should be used immediately at the end of the treatment** and it can be retailed to a client for everyday use.
